

PLAYHOUSE FAMILY UNIT

The Playhouse Family Unit is a community space that can be used by parents with children under 5 years of age, free of charge. Our aim is to encourage parents to interact and enjoy the learning and development of their children.

All local parents can access the unit with their children whilst enjoying the facilities such as an indoor and outdoor play area with activities.

The Unit has a soft play area which helps to develop children's physical abilities in a safe environment and a contact room for confidential meetings, family advice and one to one support during momentary difficulties.

There will also be meetings regarding any issues you wish to raise and professional figures can come in, answer your questions and deliver workshops/sessions which will cover these points of interest.

Whilst children play, parents can meet with other parents over a cup of tea to discuss common issues and solutions they may have found.

IT facilities are also available for the parents who wish to write CV's or search for jobs or courses they are interested in.

Home visits are available for those families who require additional support.
